(To Dr. Laurason Brown, Saranac Lake)

(typewritten)

Baltimore, June 20th, 1902.

Dear Brown:

There is a distant relative of mine, a young fellow whom I have never seen, who has tuberculosis. He is very anxious to get into the Sanitarium. Could you put his name on the list? From what he writes I should think he would be a suitable case. He has been gaining and doing pretty well. I wish you would drop the poor fellow a line and just tell him what his chances are. His address is Jonathon Osler, Box 87, Hilton (near Newark) N. J.

I hope to look in upon you this September if possible.

Sincerely yours,

W^m Osler.
