

(post-card: handwritten)

CUS417/98.66  
(Dr. W. S. Thayer)

Would he enter escape from Jahnke - for <sup>a</sup> the Bishop of Canada was  
taller ill & he had to procure a nurse's care for Montreal and  
there was a shower of food and like this to W.S. Thayer,

Point-a-pic, P.Q.

VII.27.02.

active-culture in my.

I am sending cover slips - bad ones too - of case - fever 9 w. duration -  
B. of Can. Diagnosis of malaria active-culture in my. parasites in  
blood. Slides sent to Martin in Montreal, report negative Report from  
relative of patient in Chicago positive Martin sent microscope today  
& I have gone over 4 specimens without finding ring-bodies? pigment or  
crescents. No spleen WMM this T. 100-103. Old Corrigan's disease; no  
signs sub. or obj. of fresh endocarditis save the fever. Please go over  
the slides with the greatest care & telegraph me. Put down his name on your  
visiting list for consultation &c.

Love to S. S. so glad to hear she is better

W.O.
