

No. 1 Franklin Street, West.

Baltimore, Feb. 11th, 1903

CUS417/99.14

Dear Dr. Hurd:-

I enclose a letter from Dr. Rose. I wrote telling him that I would send word to the Secretary of the Society, but I see that he wants to give a lecture on his experience with carbonic acid gas and demonstrate the treatment of fistulae at the hospital. I do not like to hurt the old man's feelings, but I do not think it is the sort of demonstration we wish to have. Will you drop him a line?

Sincerely yours,

W. Osler
