[June 1903, *undated*]

Dear Hurd:-

That was a kindly act of Mr. Phipps - and shows a discerning mind. I have told Brown Shipley & Co. to pay the money to the Johns Hopkins Hospital and we can determine later what is best to be done. Either to invest and spend the interest in the tuberculosis work or to spend the whole amount in rearrangeing the Dispensary (which needs it badly) and adding special rooms for the tuberculosis patients. Making a modest out-patient dept. of this sort might appeal to Mr. Phipps and he might double his subscription. In any case it is an encouraging sign and we can use the money to great advantage.

I am here with Emerson and Jacobs. E. has had a most profitable visit. Marie has been most kind to him and he has the run of the Bicêtre.

We go about July 1st to Brittany or the Channel Islands.

Love to all at the Hospital, ~~xxx~~ etc.

Sincerely yours,

Wm. Osler
