Dear Adami,

I am sorry in many ways that we are not to have you in Philadelphia in others as it would have been very hard to get a succession of your calibre for McGill. After all you have done a splendid work there and while perhaps there is not quite that appreciation of things scientific that you could wish, you have a young set growing up who will gradually leaven the whole lump. It is a hard-up hill fight - everywhere in fact. Even here I am surprised to find how little is done by the authorities. Raymond, Charcot's successor, told me a few minutes ago that he has had to put his hand in his pocket for every item in connection with his new installation - which is splendid. xxx

I was very disappointed not to see your name in the R.S. list. I had not seen Foster and I was not at the Annual Meeting having to go to the opening of the new O.P. Dept. of the London that afternoon. Better luck next year! I daresay we can manage it with a quiet talk among members of the Council.

I hope L.M.C. is well, and the chicks. I have an original De Generatione anamalium for the library. I sent the Eng. ed. a few years ago; the original is much better.

Yours,
W.O.
