Aug 28th.

To Dr. J. C. Shattuck Juniors.

Dear Shattuck

T.K. Fowler whose book on the Lungs you know sails on the 2nd by the Majestic for the U.S. to make an inspection of post-graduate methods. I am writing to you & Fitz to look after him when he comes to Boston. I do not know his plans as yet. He will be at the Univ. Club New York and a wire there would catch him. He is a very good fellow - perhaps you already know him. I had a bully summer, 3 weeks in Paris, 7 weeks in Guernsey loafing & sailing & fishing & now I am prowling at Harrogate for a few days with Mrs Osler & seeing York Ripon & then to Scotland. We sail Sept. 16th. With greetings to all at home particularly George Cheyne

Sincerely yours Wm Osler

Melrose
(Tell George I have had good luck in books - a number of early editions ^{and forceps} and a superb Edition princeps of Celsus 1478. Yesterday I saw the identical forceps in York with which Dr Slop broke Tristram Shandy..true!
