Dear Parfitt:-

Delighted to hear from you. I had intended to write to you after I got your announcement, but I overlooked it in the press of work.

I do hope that you and Elliott will send something representing your work for our January exhibit at the end of the month. I think we are going to have a very interesting display. I am looking after the literary side of it, and hope to have a most interesting bibliographical exhibit.

With kind regards to your wife,
