Dear Camac:-

Mrs. Osler is better. She has not had any asthma for a long time now. I heard in Philadelphia that your lecture was very good. I hope to see you before long in New York. I was disappointed that I could not go over to Janeway's dinner, but I was laid up with a schnupfen for a day.

By the way, have you a copy of Friend's History of Medicine?

With love to the family all,

Sincerely yours,

WM. OSLER.
