Baltimore.

December 15, 1903.

Dear Adami,

As you may have heard, we are to have quite an interesting tuberculosis exhibition here during the last week in January, and we are arranging to have a series of talks at five o'clock each afternoon. I am instructed by the Committee to ask you to take the hour on Friday, the 29th, at five o'clock ~~x (I accepted and gave address on 'Facts - half Truths and Truths. J.G.A.)~~ The exhibition will be in McCoy Hall, ~~and~~ the subject of the lecture is of course left to you, either semi-popular, in which case we would invite the public, or strictly professional, in which case we would invite the physicians and medical students of the city.

With love to little Mary Cantlie,
Sincerely yours,
WM OSLER.

*J. George Adami agrees and to refer to his acceptance letter made on December 15th 1903
as there is*
