Dear Blumer:-

All the same I am sure those manuscript books came from you. I shall deposit them in the Surgeon General's Library. I saw the Horace at my brother's in Toronto, and was much interested in it.

I am afraid there will be no special positions at Oxford for my Canadian friends. From all I can hear, there will not be enough to keep the Professor out of mischief. One great pleasure of living over there will be the chance of welcoming my good friends from this side. I have been elected a student of Christ Church, which makes me one of the Dons of that notable corporation. I promise you a very hearty welcome to a most select circle.

Sincerely yours,

W Osler
