Re: Museum Teaching.

Jan. 27, 1905. l w 2

19 Dear Dr. ^(Maude) Abbott:-

I am more and more impressed with the value of your plan of museum illustrations. They will be of great help to the men, to say nothing of the members of the teaching staff.

I shall be very glad indeed to look over the aneurism section. I have been expecting to see your paper on museum teaching, but I suppose they have to put in the material of the Atlantic City meeting first.

(Signed) Wm. Osler.
