(Dr. Thos. McGee from Lady Osler.)  
Oxford, July 21st, 1905.

"We are going to Cowes week with Mr. Johnston of Liverpool on his yacht and have accepted without a thought of possible sea-sickness. It will be very ignominious if we have to <sup>k</sup>put ashore. We are waiting to receive a date from the Phipps' about our visit and after that expect to go to the French coast."
