28 Dear Dr. Abbott:-
(Maude)

Oxford

I am so glad you have the section on Anomalies ready. What a ^{wonder} writer you are! I have been very busy with a number of outside things and not much time for literary work. These last cuts you sent were very good. In any case I would not be in Montreal until after the meeting and it would be a great pleasure to meet the collaborators. I will try and stir them up by letter. Do get Dr. Francis, my nephew, interested, I have urged him to help. He would be useful in proof reading, &c., as he has a keen eye for mistakes
