

Dr. C. P. Howard.

Dear Campbell:-

Many thanks about the cryptorchid abdominal tumors. Please let me know if any reports of them can be found. If they are, dictate a brief memorandum to Miss Reese about them.

We had a delightful visit at Colonsay, and Jared and Maggie were so nice. They and the children are devoted to Marjory. Altogether, I am so glad that we accepted their invitation. Jared is evidently very much better. The children are splendid. Bill 'blew' in here from the Atlantic

last night, looking more than ever like a third rate variety showman. Give my love to all the boys. Keep your eye on any other cases of abdominal tumor.

Sincerely yours,

Wm. Osler.
