Dear Shattuck

How sad about Jim Chadwick's death!  
Why did we not have the portrait last winter? Not too late now. His friend Lockwood (?) would do a good one. Let us arrange it. It should be in the Library to which he devoted so much time & which he loved so dearly.

I am surprisingly happy here considering the change. The life is very quiet but I am enjoying it and gradually getting shaken down in a new bed. I have a class of 15 good young fellows in the Infirmary, just enough to keep my hand in

I have quarters in Christ Church and am gradually settling into Donnish ways. There is much that is very comical in this old place but the men & women are much the same, except for the waists of the latter. Give my love to George Cheyne. I hope your daughter will let us know when she is in England in the spring.

Greet Geo. B. from me and all old friends

Ever yours

Wm Osler
