(Maude)
Dear Dr. Abbott:-

CUS417/103.57

Oct. 28, 1905. 7 *Urban*

Part II has come and I will look over it carefully. The photographs are most interesting. I have a remarkable drawing of that acute ulcerative aneurism. I will write next week after I have read the section. The catalogue is really an immense success, and will reflect the greatest credit on the school.

(Signed) Wm. Osler.
