

(Dr. Alexander C. Abbott)

7, Norham Gardens, Oxford.

November 7th, 1905.

Dear Abbott:

Many thanks for your new edition which seems to grow with the growing years. I hope George and the children keep quite well. We shall see you all at Christmas time. We sail December the 16th.

I have settled down here very comfortably. There is not much work, but what there is is very interesting. I have a nice class of fifteen men for elementary clinical instruction.

Revere enjoys Oxford very much. He is at a good school near by, and he has taken to the life very kindly.

Love to George and the chicks,

Sincerely yours,

W^m Osler.
