

(To Dr. T. R. Boggs, J.H.H.)

(Typewritten)

7, Norham Gardens,
Nov. 11th, 1905.

Dear Boggs:

I am so glad to hear that you are settled at work in the clinical laboratory. What a nuisance about your copy, but I will write something rude in it when I come out. I shall look forward with much interest to the Influenza paper. I hope to spend the month of January with you all, and we can go over the bronchiectasis material. It is nice to hear that everything is working so smoothly. You would be amused to see my class of fifteen at the Radcliffe, really very nice boys, and there is material enough to keep me amused. I am meeting some charming men, and there are many phases of the life here with great attraction.

The family sends love,

Sincerely yours,

W^m Osler.
