(Dr. Thos. McCrae from Lady Osler.)
Oxford, February 9th, 1906.

"I have just had a telegram from Dr. Osler at Queenstown saying he has had a splendid voyage and was well. Revere and I reached here very quickly from Liverpool! (This is not very clear and suggests that they crossed on different steamers. The letter has not the year and I merely give the date from the envelope. It is possible that the letter may be in a different envelope, but the kind of paper is the same)
