.....The picture is splendid! How well the faces come out. I will send you the remarks next week. I wish too that I had the names of all the men to put on the back of the frame.... What about Appleton's T.B. book? Did they write to you? I told them you could get the good men together, but they may have had some N.Y. fellow in view, as I heard from Broome this week he said nothing about you, let me know. You come here on your way to St. Moritz, of course.....
