And on July 26th a first case ^{from the first} of W. S. Thayer.

I am sending you today the Biographe Medicale of Bayle - a reference treasure for all sorts of personal & bibliographical facts. There is nothing so good in the literature. I had a good trip back, but caught a heavy cold on landing which has rather knocked me out. Fine weather here & all well. Love to S.S.

Yours,

W^m Osler
