(Dr. Lewellys Barker)

7, Norham Gardens, Oxford
April 13th, 1906.

Dear Barker:

I had no idea until I heard from Thayer and Cushing this week that you had been laid up for so long. What an aggravation it must have been! I hope by this time you are feeling quite yourself. ~~¶~~ Everything here is moving very quietly. We are having a most extraordinary spring - bright sunshine every day. I am off to Munich next week for the Congress of the Innere Medicine, where I hope to get some inspiration. /

With love to Mrs. Barker and Johnnie,

Sincerely yours,
W^m Osler
