Dear Nuttall:

Thanks for your letter with its useful information. I am afraid Graham Kerr is out of it, unfortunately, from what Shipley tells me. It is a very difficult problem. Haldane called last night and he is red hot for you. Sedgwick wrote a nice letter about you also.

With love to all at home,

Sincerely yours,

(in handwriting):

(Wm. Osler) (signature omitted).

Lister too has written today stating that he appreciates your work most highly.

(Note by Prof. Nuttall: "Private: Osler doing spade work to bring about my election as Quick Professor!")
