

(To Dr. T. R. Boggs, J.H.H.)

(Typewritten)

7, Norham Gardens, Oxford.  
June 15th, 1906.

Dear Boggs:

I am delighted to hear that you have decided to remain. I am so glad you are getting more teaching to do. I sail August the 4th, and hope to come to Baltimore directly after the Toronto meeting. I will have a week at least at the hospital. I hope you will be there.

I wish, in going over the angina post mortems, you would look out for the instance of coronary artery disease in the Johns Hopkins Hospital post mortems. We had several remarkable cases of thrombosis and embolism - several without any anginal features.

I am so sorry we are not to see you over here this summer, Tommy is a new boy, full of energy at school and at games. He is beginning to bowl a very good ball at cricket. All send love to all of you.

Sincerely yours,

W<sup>m</sup> Osler
