7 Norham Gardens, Oxford.

Dr. C. P. Howard.

June 29th, 1908.

Dear Campbell:-

I suppose by this time you are deeply enamoured of all those Cafe Ledpold girls - at any rate, I am sure they are with you. Please be very careful. They would never do in a French Canadian community.

Chatard is here with his pneumonia material, and we want to get ready for a fasciculus about November. You promised to work up the arthritis cases. Do you think you could do it by the first of November?

All are well here. I saw marjory in London yesterday. We leave this house today. I go to Christ Church, Grace and Miss N. have taken lodgings for the month, and Revere boards at his school. We come back here August 1st. for three months. Bill and I sail on the Campania Aug. the 4th.

Sincerely yours,

Greetings to Muller.

W. Osler.
