

CUS417/109.66
From the Regius Professore of Medicine
Oxford.

July 11th, 1906.

Dr. C. P. Howard.

Dear Campbell:-

I am asking Miss Humpton to send you the notes of the three cases. I think you could work up a short paper. It is of a great deal of interest, of course, in connection with the original pneumococcus arthritis.

Love to all.

Ever yours,

W. Osler.
