Dear Dr Med von Curschmann

I was desolate to find your teutonic card - & not yourself. Why did you not send me a line beforehand We were at Ewelme about 14 miles from Oxford & it would have been so nice to see you there. I am so disappointed - I do not know of any J.H.H. graduate I would have liked to see better, which is an awkward phrase, if true.

Greetings & best wishes, - pass on some to Hugh, G, & family

Yours ever,

Wm Osler.

(Refers to call made at Oxford on return from 9 mos. in Garré's clinic at Breslau. The calling-cards I used in Germany described me as "Doctor Med" - one of those I left at Norham Gardens; thereafter Sir Wm. always called me von Curschmann)
