Dear Shepherd:-

Willie Francis returns next month to settle in Montreal. Of course it will be a slow up-hill job for him. He has had a good training and ought in time to do something. I was very sorry not to be able to get out to the meeting, but it was impossible. We only got possession of our new house August 1st., and we have a great many alterations to make. I saw MacKenzie the other day looking remarkably well. Boodle was here yesterday. He is just the same old character. He looks very well. He had been making a circular trip on his bicycle.

Give my love to the girls,

Sincerely yours,

W Osler.
