

Fr. W. O. to J. George Adami, 1906?

Dear Adami,

Two weeks ago your article for the System * (on Heredity and Disease. J.G.A.) came in galley form and I had intended to write at once to say how deeply interested in it I soon became. I have never read so clear a presentation of the whole question and I am delighted to think that the work will open with such a contribution. I am really deeply grateful to you for it. It is too bad that we should have had such delays but the printers have 'held up' everything. I hope the volume will be out early in Jan. How does the big book progress? We sail on the 28th. I hope to be in Montreal about the 10th or 11th of December.

I have been very busy with the Harveian Oration - as usual, I put off until the last moment and only finished the evening before. I have had good fun reading (all summer) for it.

Roddick was here looking so well and in very good form.
Love to L.M.C.

Yours sincerely,
WM OSLER.

Thanks for doing anything you can for Francis.
