(Typewritten)

(To Dr. John W. Churchman)

FROM THE REGIUS PROFESSOR OF MEDICINE OXFORD

November 9th, 1906.

Dear Churchman:

This morning, by the same post that brought yours, came a letter from Dr. Kelly, stating that he was going to undertake a large work on American Medical Biography. I have written suggesting to him that you would be the very man to help him. I am sure you could make it a great success. The literary and historical journal is fairly well provided for. I am sure a work of the kind I mention would be most congenial.

With love to the boys,

Sincerely yours,

W^m Osler.
