(Mr. Henry Phipps)

Dec. 13th, 1906.

Dear Dr. Osler:

Your letter of Nov. 23rd was duly received, and I intended speaking to you on the subject before leaving the steamer, but overlooked it. When you have gotten in your large subscriptions, I shall be pleased to help you with a small one.

I hope you will be able to raise a sum sufficient to carry out your plan for a Medical School Laboratory for Oxford University.

With kind regards,

Yours very truly,
