707. Welch

(Dr. Thos. McCrae)

CUS417/105.10

(postal)

Oxford, England,

January 15th, 1907.

Wonderful trip: 5 days, 11 hours and a few seconds! No bad weather. Everything here in such confusion--workmen still in the house, but it looks very well and we live in hope. I am greatly pleased with the prospects of the System. By the way, do you like the name Modern Medicine? I do not --who selected it? I would prefer a System. Send you titles very soon.

Love to Welch and all,

Yours, W. O.
