Dear Clarke:-

Congratulations on your paper in this weeks Lancet--
a most excellent piece of work, so novel and full of physiological
as well as clinical value. Have you seen Dr. Huerner Mullin at
the children's hospital? Ask for him, please. He is a great
friend of mine. I want his adredd. He is from Hamilton, Ontario.

I had a letter from your father this week.

Sincerely yours

Wm. Osler
