

(A.C. Klebs from W.O.)

Oxford, April 12th, 1907 CUS417/105.50

.....I think Bardswell's paper will interest you very much. When you come over this spring I would like to go with you to Midhurst. I will see you, of course in Washington. You must give us a few days in Oxford, and I hope you will be here during term and see something of the college life. I do not see that you have anything to reproach yourself with in the matter of English. I think the best test is that I never remember to have had my attention called to any abnormality in your phrases.....
