36 Dear Dr. Abbott:-

CUS417/105.52

I waited before sending you the samples from the Press until I had the new catalogue which Lorrain Smith told me he was having printed. That came only yesterday and I have had Mr. Hart prepare dummy sheets of different sizes, which I will bring out.

This is sad news this morning about the

bruning of the school. I am afraid the loss in the museum is serious. I hope it is not quote as bad as the newspapers state. In any case, a few years will put the museum in a much better condition than we could have hoped to see it in the old quarters, so that, please, take courage.

(Signed) Wm. Osler.
