- this "July 10"*

Dear Barker

It was too bad to ask you to cut out anything from so good a section but L. B & Co. are obdurate & will not exceed the limits. It nearly killed poor Laury Brown to have to cut his article in half but it would have taken half a volume. I shall look out for you early in Aug. We do not leave until the 12th or 13th. Come directly here from Liverpool. Good trains from the Landing stage. Ask for the G T Western RR man who will give you ticket & your things go over in a truck. I have asked Boggs to pick out - or superintend the picking out of some facts about our aneurism cases. I have the analysis up to '05 & with your consent I should like to have up to date. - Statistics as to syphilis &c.

Love to all -

Yours,  
W.O.

Dear Miss H. Please forward. All well here. Mrs. Revere sails today. I have a new sec. coming this eve & am scared to death. Tom will shoot her at sight!
