13, Norham Gardens,
Oxford.

October 4th 1907.

Dear Adami,

I am so glad to hear from you that things are going on satisfactorily. I had a very nice talk with Peterson and things seem moving really in the right direction. I think there is no question that the Rockefeller's will give something specifically for research. Both Welch and Mr. Gates wrote most hopefully.

Rolleston is a trump and he is so kind to all the young Canadians and Americans in London.

We had a very good holiday at Bude and the weather has been charming.

The Leas tell us that the Oxford Press is very anxious to have your Pathology. We could issue it here very advantageously. I am sending you the first number of our new journal of medicine.

Give my love to (L.M.C.)

Sincerely yours,

Wm. Osler.
