

(Typewritten)

(To Dr. Joseph H. Pratt)

13, Norham Gardens, Oxford.
April 20th, 1908.

Dear Pratt:

Glad to hear from your letter that you have got comfortably settled. I quite expected to hear that you had gone to Charlottenberg! I wish you would look in the library if there are Transactions of any Medical or Scientific Society of Gottingen for the years 1825-50. If so, will you look through the Index if there were any communications by Thomas ~~Peaseck~~ Beddoes?
Swale

Sincerely yours,

W^m Osler.

(In Handwriting)

In 1832 he took his degree at Wurzburg - could you find if there is a list of M. theses of that date.
 1835 Schornstein at Zurich proposed him as Prof of Comp. Anatomy.

U.
