(Letter to Dr. Frank Thomas)

April 22nd/08

13, NORHAM GARDENS,  
OXFORD.

Dear Thomas

3 I knew I could not be mistaken - I have seen a case in the horse. For human  
human cases see p 623 of Vol I of my System of Medicine - Dr. Griffiths has a copy -  
It would be well to consult Brauns Monograf - of wh. an English Edition has appeared.  
Write to the Royal Med Soc. for the Volume If you are not a member I can get it out  
for you. It would be well to look up the literature carefully (as the cases are ex-  
ceedingly rare.) and report it, with good drawings. You could get all the references  
in the Index Medicus Set the Light of your Life at it - between you there is an AI  
paper

Give her my sincere regards & congratulations. She did not look as if she would last  
to get into practice.

Sincerely yours

WM OSLER
