To

(Mr. Henry Phipps)

Dear Mr. Phipps:

I enclose you the invitation for the Darwin-Wallace celebration on July 1st. As our seats are next to each other, we might arrange to go together. An invitation to the dinner will also be sent to you. I think the occasion is one which you would enjoy very much.

I have just heard from Welch by cable that you propose to give a Psychiatric Clinic to the Johns Hopkins Hospital. I cannot tell you how delighted I am, as I have always had a great desire to see more done for the early cases and the unfortunate borderland patients. I am sure you will be pleased with the way in which the work will be organized.

Sincerely yours,

Wm. Osler.

I will call one day next week.) -(In handwriting)
