
CUS417/106.75

From the Regius Professor of Medicine, Oxford.

(Typewritten)

July 4th, (1908).

To

(Mr. Henry Phipps)

Dear Mr. Phipps: -

I was sorry that I had not a chance to introduce you to Lady Aberdeen, as I know she is anxious to meet you. She said in her remarks that among the things which had stimulated them to take up the work was the Reports from the Phipps Institute. I have sent the cheque on to her.

Sincerely yours,

Wm. Osler.

I am sure she will appreciate highly your practical support. - (In handwriting).
