

To Mr Perry Pepper (Pmca)

13, NORHAM GARDENS,
OXFORD.

July 14th. 1908.

Dear Perry:-

Many thanks for sending the proceedings of the Undergraduate Medical Association. What an excellent scheme! I had heard something of it, but you seem to have completed an admirable organization which will prove most helpful in the education of the undergraduate. Get it as widely spread as possible in the classes. I see all the papers were by '98 men. Catch the fellows early and make them work. Give my love to Pepper (Tertius) and to your mother. Let me know should you be coming over to England. We would so like to see you, and if you go on the Continent there are some men to whom I would give you introductions.

Sincerely yours,

M Osler
