Sept. 15, 1908

Dear Harry T:-

I was so glad to have your letter from North Hatley and to hear such good accounts of the family. It would be splendid if Hal could get a Rhodes Scholarship and come here. He would like the life so much. I suppose Trudeau will be a bishop. I saw Mary Worthington and your sister before they sailed. The former looks wonderfully well.

Do give my love to Dr. Trudeau and tell him how disappointed I am not to see him this year. How encouraged he must be to see all this good work going on and to feel that he has had such an important hand in promoting it. After all, things do turn out sometimes as they should, and the lesson of his life has been one of inestimable value. I hope in a few weeks you will have my volume of collected essays, the Alabama Student, which I have dedicated to Popsy. The articles will be familiar to you, but I think it will be worth while putting them together.

Isaac Walton is well and is off for big chub today. Miss Humpton has been over and is leaving this evening. She will give you an account of the family.

With love to all,

Ever yours,

(Signed) Wm. Osler

The Tuberculosis Congress was in Sept. also expected to come and Mr. Mabel Brewster letter June 10
