A warning
to the Editor of The Scientist

Sir,
There is a man going about stating that he is
my nephew with a card B. E. Osler, The Dale,
Toronto, and Christchurch Oxford. Will you please
ask doctors to be careful. He has already
bled several of my friends.

I am, Sir, yours faithfully

Dear Dr. Cushing,

It is just possible you
never saw this before - interesting but
of no very great value.

Hope everything is
going as well as ever.

Yours ever

A.M.
