We are enjoying Paris so much - perfect weather, and we have been doing the town.

I send you today a delightful review of Anatole France on the tumors. I have been reading his short stories with such pleasure. I have ordered for you the caricature mentioned in the review.

By the way, Geoffrey Freres, 5 Rue Blanche, have a splendid collection of old prints and engravings of doctors and medical subjects.

Love to Sister S. and the boys.

Yours sincerely,

Wm. Osler.

The politicians were too strong at Edinboro; I did not expect it, an Independent has not been elected since Carlyle defeated Dizzy.
