Paris,

Nov. 20th, 1908.

In full swing - such busy days - hospital every morning -
 Raymond, Marie, Dieulafoy, Vaquez, have been most kind.
 Montier, Marie's second interne, has given me a splendid demonstration
 of the aphasia work. I go to the Academie with Chauffard every week,
 and to the Societe des Hopitaux with Rist who is a most delightful fellow.
 Mag^{min} & Schelman are well.
 We are beginning to have very interrupted evenings, dinners - which Mrs.
 Osler dislikes. Our apartment is most sumptuous, - we are in clover.
 Love to Mrs. Jacobs & the boys.
