(Dr. J. A. Chatard)

44 Ave d'Jéna, Paris.

(Jan.) 2<sup>nd</sup> (1909)

*To Dr. Albert Chatard of Baltimore*

Dear Chatard:

Yours of the 10th came last eve. I am delighted that the meeting has been postponed as I should have been greatly disappointed not to have been able to give the Oration. I shall sail from Genoa about the end of April, giving myself time, I hope, to be at the Assoc. of Amer. Physicians. You will I am sure have a great deal to do before you can get the inside of the building in order, and the question of entertainment is a serious one. Make a special point of the other 18th century associations - the College of Phy., Phila, the N. J. and one of the N. E. societies, there are only four or five. Then Presidents should have places of honor. I should think the Committee could go to prominent citizens and ask for subscriptions for entertainment.

We are enjoying Paris so much - a great city, the men have been most kind. We leave for Lyons and Montpellier on the 10th - Oxford the safest address.

Yours ever,  
Wm. Osler.
