

On board R.M.S. "Majestic".

W.O. to J. George Adami of Montreal

Wednesday, 1909.

[Cefue - 28]

(handwritten)

Dear Adami,

Your nice bundle of reprints came the other day and I beguiled several bed-hours with them. A lot of good work! I was laid up for ten days with influenza and could not sail on the 13th. I hope to meet you perhaps in Washington. In any case, I shall be in Montreal about the 12th of June and hope to have the best part of a week with you. I am anxious to see the new buildings, and all the changes in two years. You will be sorry to hear that Mills has not been doing well, bladder infected. I saw him last Wednesday just before sailing - he was better - no fever but the operation was, I fear, not very successful. He looks well and has borne the sufferings most heroically.

It will be very nice to see you all again. Love to L.M.C. and the chicks.

Yours,

Wm. Osler.

[J. Wmsley]
