

~~May 1904~~

*McCrae's letter*

Baltimore, Sunday, May 19<sup>th</sup>  
 507 St Paul St. Dr. J. McCrae.

Dear Pratt,

Is there anyone in Boston - M.G.H. preferably - working at the pleura who could be associated with Walter James in the article on the Pleura in our System? Drop a line here in the course of a day or so to McCrae. I shall be in Boston about the end of next week.

Yours,

W. Osler.

*Note for J McCrae concerning International Club in Boston appearance.*

Mendy Mayo

The next evening he must have given us the first center or the  
Michael Serech's paper at the Hist Club.

Osler,
