

(To Dr. T. R. Boggs, J.H.H.)

(Handwriting)

56 Mackay Street, Montreal.
June 12th (1909)

Dear Boggs

Do let me have a photo of the big aneurism - it must be like the big one in my paper on An of abd aorta. I enclose memo on back for Parsons, & I will write to Barker. The analysis has been made up to about the 130th case so that if he begins at say May of this year & works back I can send word on my return just how far the analysis I have has extended. I have had a very good rund-reise & it has been so nice to see old friends again. Cole is most anxious that you should come to the R.H. It would give you more time for research. Let us Know if you are to be in England this summer.

Yours

W.O.

All well here.
